

Community Leaders Brief

Dear Community Leader,

You have been given this brief to help you understand what is happening now regarding the closure of the banking system. We hope you will help maintain the calm and peace of your community during this short period of change. We encourage you to support those in positions of responsibility to help maintain the status quo in regard to the vital necessities of your local community.

We expect that food, water, electricity, internet, gasoline, transportation and phone service will not be disrupted during this banking system changeover. Furthermore, this community leader brief has been created to help you understand what is now transpiring around the world. The people giving you this brief are part of a worldwide network that is dedicated to a peaceful transition to a transparent, worldwide financial system.

Table of Contents

1. Who do we represent and who is behind this process?
2. What is happening and why are the banks closed?
3. Your vital role in this process
4. Important suggestions to maintain peace for a harmonious change

6. Why is this happening?
7. Evidence to be presented to the public
8. Time to act
9. Powerful leaders will fall
10. Your right to question the truth of this brief is noted
11. In conclusion

Who do we represent and who is behind this process?

Our group comprises intelligent, aware individuals from all segments of society. We are dedicated to nonviolent change. We have been made aware of what is happening by key individuals in the world's secret service organizations and various military. Top ranking members of the world's political infrastructure support these lawful enforcements. These honest patriots in the CIA, NSA, FBI, military, sheriff and police forces have counterparts around the world involved in a simultaneous sweep of financial criminals.

To summarize, there are large international multijurisdictional task forces who have uncovered large-scale corruption in the financial and political arenas and are now taking lawful actions to end this criminal behavior. Certain leaders of regional and national law enforcement agencies and police forces are aware of what is now taking place as well. We anticipate military presence to be deployed in the cities to help maintain the peace. We anticipate broadcasts over the emergency broadcast network very soon to explain the situation, if they have not begun by the time you have received this document.

What is happening and why are the banks closed?

What is happening now is a necessary financial reset of the global central banking system. Unfortunately, this necessitates the closing of every computer tied into the central banks. This will leave the entire planet without access to cash, ATM machines, credit cards or stock markets.

There will be no currency available other than what is already in circulation for a maximum time of possibly 2 weeks. The intent and plans of these lawful agencies in charge are hoping for is a best-case scenario of 3-5 days for the banking system to be offline. However, with so many variables at play, the exact time it will take to affect this changeover in reality is, at present, unknown. This lack of money amongst the world's populace clearly may create some hardships in various locations. Some may panic due to no access to their money through normal channels.

Your vital role in this process

Our contact with you and your leadership is vital, in order to maintain open and honest communication with those in your community, and with those community leaders who may not know what is happening, or who may not receive this brief soon enough. One of the most important actions we will ask you to do is monitor those local police forces that are unaware of what is happening. They may see the public's confusion and mistake this natural reaction as hostile or potentially violent. We ask that, above all, the police forces remain vigilant, proactive and refrain from violence.

Important suggestions to maintain peace for a harmonious change

We ask that water districts and food banks and local community groups be encouraged to serve the populace if the bank closures result in long-lasting disruptions to any of the following: transportation, food, water, electrical grid, cell phone towers, internet, television, emergency services, hospitals and any other vital networks.

How did we know this is happening now?

Our group has been contacted and we have been asked to act as an informational network and infrastructure to support you in your appointed tasks, whatever they may be. If you are a mayor or a water district manager or the community's liaison to the power companies, we hope you will maintain your responsibilities and keep services operating while the banks are closed.

We further ask that you provide these necessities to those in need by way of your local community infrastructure, such as a soup kitchen on school grounds, or distribution of clean drinking water. We ask that hospitals and emergency services be given priority and support to protect the aged and sick.

Why is this happening?

Unfortunately there has been criminal malfeasance within the world banking systems including the Federal Reserve for many years. The individuals in charge have corrupted many aspects of the world's political infrastructure. Greed and lust for power have thwarted the democratic process and harmed our world's ecosystems and created horrendous societal problems.

Evidence to be presented to the public

Evidence is now held that indicates a system of financial fraud and corruption. This has resulted in the institutionalized theft of much of the world's hard earned money. This corruption is now ending. The evidence, the serving of indictments, and the arrests of those responsible have now begun. The individuals involved in this conspiracy are very powerful and politically connected criminals. They have been repeatedly warned to follow the laws of their respective countries but some of them have refused.

Time to act

This refusal to comply with the law has now forced closure of the central banks, which is now affecting the entire world banking systems. Radical action is required to enforce the law. Enforcement is being implemented by a coordinated police force around the globe. The reason this has not been done by alerting the populace beforehand is because the criminals in charge control the world media and have established censors worldwide. A policeman does not tell a criminal he is going to be arrested or he will flee.

Powerful leaders will fall

The banking-racketeering operation has included some very powerful public figures. When the dust settles, their identities will probably shock many people. What we are describing is not a military coup or anything negative. The way is being cleared for a more honest system of governance, which will find worldwide support as the truth is revealed to the public in the weeks to come.

Your right to question the truth of this brief is noted

You may not be aware of or agree with the information that is being presented here, but we ask you to consider that this brief was created on September 29, 2013. Knowing the date of this brief should help you understand that what is now taking place has been known by us for some time. We reiterate that this is not a military coup and there is no reason for panic or fear.

Believe us or not, but please work efficiently to facilitate calm and peace within your communities.

In conclusion

We ask you to keep an open mind to the information in this document. Know we are supporting you in your position of responsibility and power, as you are a leader of your community. Know that this transition is intended to be for only a short time.

You will be asked to think locally and to not wait for federal instructions as certain communication channels may be disrupted.

Please study this document and, if possible, talk candidly to the people who brought this brief to your attention. They may have wisdom and can clarify what is happening. They may share ideas that may benefit you and your community.

We also have a website, prepareforchange.net, where you may find links to articles as well as evidence that what we are saying has been in process for quite some time.

We encourage you to educate yourself via these links. If the internet remains open during the bank closures, the information at prepareforchange.net will help you understand more.

If the internet is down, please contact those who brought you this document.

Respectfully submitted,
